Welcome and thank you for inquiring about my work! This guide lists the sessions that I provide, but is certainly not limited to just these. If you do not see something that you are looking for- please be sure to contact me!

Birth sessions are a unique service I offer. This session is customized to the family's comfort level- as much or as little coverage as you desire. With this service- I hope to let birthing supports focus on Mom. This session is a candid session- there are no poses- I just capture the moments as they unfold. I will stay out of the way and be discreet as possible while trying to preserve your special day in photographs. Please note that as birth can be very unpredictable, there is no guarantee on this session occurring and if for any reason I cannot be present, your pre-paid fee will be returned, or may be applied as payment for a newborn session. But I will do my best to be at the birth any time of day or night! I only accept a limited number of birth clients per month, so please contact me ASAP with your due date.

## **Newborn Portrait Session: \$350**

For newborn sessions please plan for a 2 hour session in my studio. I want to ensure ample time for the baby's needs and wants, and I don't want either of us to be rushed. Newborn sessions are best captured within the first fourteen days, so please let me know your due date so we know when to expect the bundle to arrive.
